

DESIGNED AROUND HOW YOUR BUSINESS ACTUALLY WORKS

Software That Heals Your Operations.

Most businesses don't need more tools. They need fewer wounds. Sentra builds the platform your team actually wishes they had — purpose-built around your workflow, branded as your own, and live in weeks, not years.

YOUR BRAND. YOUR IP.

Five Pains **Bleeding Your Business Dry.**

Every growing business reaches a point where the systems that got it here become the things slowing it down. Below are the five wounds we see in nearly every operation we walk into. If two or more sound familiar, this brochure is for you — each pain has a page that shows exactly how we heal it.

1

Your business runs on spreadsheets and email.

Nothing connects. Numbers never agree. Every report is a fresh argument.

Heal on

Page 03

2

Customer messages slip through the cracks.

WhatsApp, email, web chat, calls — nothing in one place. Customers wait. Some never come back.

Heal on

Page 04

3

Your team's knowledge walks out the door every quarter.

The answer to every question lives inside one busy person's head. Nobody else can find it.

Heal on

Page 05

4

You can't see what's actually happening in your own business.

Reports arrive late. Numbers disagree. By the time you spot a problem, it's already cost you.

Heal on

Page 06

5

All of the above. Every single day.

Each problem feeds the next. Your team is exhausted, your customers are slipping, your margin is shrinking.

Heal on

Page 07

OUR PROMISE

We don't sell software you have to learn. **We build the platform around how your business already works** — your terminology, your processes, your brand. Your team feels at home from day one. Your customers see software that looks like you built it yourself.

Your Business Runs on Spreadsheets and Email.

THE WOUND

Twelve Tools. Zero Truth.

Sales lives in one app. Inventory in another. Accounting in a third. HR somewhere on a shared drive. Every Monday someone is rebuilding the same report from scratch — and getting different numbers each time. Decisions are guesses dressed in spreadsheets.

14 hrs

Per week your team loses just moving data between tools

\$3.2K

Per month wasted on tools that almost-but-don't connect

2-3 wks

Behind on your real numbers at any given moment

HOW WE HEAL IT

Meet ATLAS — Your Business, Unified.

One platform that holds your entire operation: sales, inventory, invoicing, accounting, projects, HR, fleet — all in one place, all branded as yours, all talking to each other in real time. Your team logs in once and sees the whole business at a glance.

One source of truth

Sales, stock, money — the same numbers everywhere, always.

Time back to your team

The data-shuffling work simply disappears. Hours per person, every week.

Reports without arguments

Every report comes from the same live data. Decisions get faster.

Built around your business

Your products, your prices, your terminology, your branding. Nothing generic about it.

VISIBILITY FOR LEADERSHIP

Customer Messages Slip Through the Cracks.

THE WOUND

Seven Inboxes. One Frustrated Customer.

A customer messages on WhatsApp. Then emails. Then calls. Three different people on your team see three different parts of the conversation — and none of them know the customer just bought from you last week. By the time someone responds, the customer has already messaged your competitor.

18%

Of customer messages go unanswered for over 24 hours

4.2 hrs

Per person per day spent checking inboxes that should check themselves

~30%

Of unanswered enquiries quietly become lost revenue

HOW WE HEAL IT

Meet ECHO — Your Always-On Customer Command Centre.

One screen where every customer message lands — WhatsApp, email, web chat, social, phone. Your AI assistant drafts replies in your voice, hands the tricky ones to your team, and never forgets a customer's history. Your customers feel heard. Your team finally catches its breath.

Every message in one place

WhatsApp, email, chat, social — one screen, full conversation history, full customer record.

Replies in seconds, not hours

Your AI drafts the answer in your tone. Your team approves and sends in one click.

Nothing falls through

Auto-routing, escalations, SLA alerts. Every message is owned by someone, every time.

Customers feel the difference

Faster, smarter, more personal — even at 2am when your team is asleep.

ANNUAL RECOVERED REVENUE

24/7

NEVER CLOSED, NEVER ASLEEP

Your Team's Knowledge Walks Out the Door.

THE WOUND

The Answer to Every Question Lives in One Person's Head.

When your senior person is on holiday, work stops. New hires take six months to become useful. Half your meetings are people asking each other questions that already have answers somewhere in the company — in someone's email, on a forgotten document, in a Slack thread from 2023. The knowledge is there. Nobody can find it.

~6 mo

For a new hire to become genuinely productive

2 hrs/day

Each person loses re-asking what's already known

100%

Risk that critical knowledge leaves with one resignation

HOW WE HEAL IT

Meet CORTEX — Your Company's Mind, On Demand.

A private AI assistant trained on your documents, your processes, your way of doing things. Anyone in your team can ask anything — "how do we handle a refund?", "what's the policy for X?", "what did we agree with this client?" — and get the right answer instantly, with the source. Your knowledge stops walking out the door.

Every answer, in seconds

Ask anything in plain English (or WhatsApp). Get the answer with a citation to the source.

Onboarding cut in half

New hires have a senior teammate available 24/7. They become useful in weeks, not months.

Your knowledge, your data

Lives entirely on your private platform. Never shared. Never used to train anyone else.

Always up to date

Connects to your live documents. Edit a policy — the answers update automatically.

~2,400 hrs

PER YEAR RECLAIMED ACROSS THE TEAM

3× faster

NEW-HIRE ONBOARDING

Private

YOUR DATA, NEVER LEAVES YOU

You Can't See What's Happening In Your Own Business.

THE WOUND

By the Time the Report Lands, the Damage Is Done.

You ask a simple question on Monday — "how are sales tracking?" — and the answer comes Friday, in a slide deck, with caveats. The number that mattered most this week was a number you didn't even know to look for. Problems aren't caught early. They're discovered in hindsight, after they've already cost you.

3–5 days

Lag between something happening and you knowing about it

~12 hrs

Per week your finance/ops team spends building reports

Reactive

Decisions made after the fact, never ahead of it

HOW WE HEAL IT

Meet LENS — The Business, Live.

A live dashboard built around the numbers you actually care about — updated the moment they change. Your AI watches them around the clock. The instant something looks off, it sends you a WhatsApp message explaining what happened and what to look at. You stop chasing yesterday's numbers and start steering today's business.

✓ Live, every metric that matters

Sales, cash, fulfilment, satisfaction — updated in real time, on every screen.

✓ The AI watches when you can't

Anomalies, drops, surges — explained in plain English, sent to your WhatsApp.

✓ Less reporting, more deciding

Reports run themselves. Your team gets back the day they used to lose to slides.

✓ Daily executive briefings

A 60-second AI summary of what changed, every morning, on your phone.

Real-time

NO MORE END-OF-MONTH SURPRISES

12 → 0 hrs

WEEKLY REPORT-BUILDING

Proactive

CATCH PROBLEMS BEFORE THEY COST

All Of The Above. Every Single Day.

THE COMPOUND WOUND

One Pain Feeds the Next.

The chaos in your tools makes customer responses slow. Slow responses lose deals. Lost deals make your numbers worse. Bad numbers hide the real problem. The real problem stays hidden because nobody can find the answer. Your team works harder and harder — on the wrong things. This is the real wound.

HOW WE HEAL IT

The Full Sentra Suite — Working as One.

When all four products work together, each one makes the others stronger. Your operations system feeds your customer command centre. Your customer conversations train your AI brain. Your AI brain explains what's happening in your live dashboard. Your dashboard tells your team what to fix next. The cycle becomes virtuous instead of vicious.

ATLAS

THE OPERATING SYSTEM

Your sales, inventory, accounting, HR, projects — one connected platform.

ECHO

THE CUSTOMER CENTRE

Every customer conversation in one place, with AI on hand to help reply.

CORTEX

THE COMPANY BRAIN

Your private AI assistant, trained on your documents and your way of working.

LENS

THE LIVE DASHBOARD

Real-time visibility, AI alerts, executive briefings on your phone.

HOW IT ALL CONNECTS

From Signed To Live In Weeks. Not Years.

We don't disappear into a six-month black box. Every Friday, you see real progress. Every milestone, you decide whether to move forward. There are no surprises, no scope creep, no junior consultants reading from a script — just one senior team building your platform alongside you.

- 1. Discovery & Design** WEEK 1

A senior engineer sits with you and your team. We learn how your business actually works — the language, the workflow, the quirks. You leave the week with a clear written plan and a fixed price.
- 2. Built Around Your Business** WEEKS 2-3

Your platform takes shape with your branding, your terminology, your workflows. You see live progress on Friday demos — never a surprise at the end. We adjust as you watch, not after.
- 3. AI & Integrations** WEEKS 3-5

Your AI assistants learn your data, your tone, your processes. We connect everything that needs to talk to your existing tools, your bank, your suppliers, your channels. Your team starts test-driving real workflows.
- 4. Launch & Aftercare** WEEK 5-6

We move you to live, with hand-holding training, a written runbook, and a senior engineer on call. The platform is yours — full IP, full ownership, no lock-in. We stay on as your support team for as long as you want us.

Our risk-reversal: If the first milestone doesn't meet the specification we agreed in writing, you don't pay for it. That's how confident we are in this delivery model — and how much we respect your time and money.

Transparent Pricing. No Surprises.

Every engagement is quoted with a fixed scope and a fixed price — you know exactly what you're paying before we begin. Below are typical starting ranges. Final pricing is set during discovery, based on the size of your team and how deeply we tailor the platform to your workflow.

SINGLE PRODUCT
One product, fully built and branded for you

From \$9K · one-time setup

✓ Choose Atlas, Echo, Cortex, or Lens

✓ Branded as your platform

✓ Built around your workflow

✓ Live in 4 weeks

✓ 30 days post-launch support included

MOST POPULAR

THE FULL SUITE
All four products, built to work as one platform

From \$42K · one-time setup

✓ Atlas + Echo + Cortex + Lens

✓ 25% suite discount applied

✓ Deep integration between all four

✓ AI assistants across the platform

✓ Live in 6 weeks

✓ 60 days post-launch support included

ONGOING SUPPORT
Hosting, monitoring, optimisation

From \$400 / month

✓ Hosting + uptime monitoring

✓ Security patches and upgrades

✓ Priority support & on-call response

✓ Quarterly improvement cycles

✓ Cancel any time, 30 days notice

CUSTOM ENGAGEMENTS
Multi-entity, complex integrations, large teams

Quoted · on enquiry

✓ 500+ user deployments

✓ Multi-country / multi-entity

✓ Bespoke modules & integrations

✓ Dedicated senior engineering team

✓ Enterprise SLAs & compliance

Payment schedule: 50% on kickoff, 50% on go-live. Monthly support billed in advance. **Risk-reversal:** If the first milestone doesn't match the written specification, the milestone is waived and the kickoff payment is refunded — you walk away whole.

YOUR NEXT STEP

Let's Heal These Pains. Tell Us Where It Hurts.

A free 30-minute call with a senior engineer. No slide decks, no sales pitch — just a straight conversation about what's slowing your business down and whether the Sentra Suite is the right cure. You decide whether it's worth a second call.

STEP 01

Tell us the pain

Email or WhatsApp a one-line description of what hurts most. That's all we need to start.

STEP 02

30-minute call

We'll ask smart questions and tell you honestly whether we can help — or whether you need someone else.

STEP 03

Written plan

If there's a fit, you get a fixed-scope, fixed-price proposal and timeline within a week.
